

SOLO-KP LCD

Multi Apartment GSM Door Entry Device

NEW SOLO-KP LCD with illuminated display

The **SOLO-KP LCD** is wireless audio GSM Intercom device for multi-apartment buildings and companies. When visitor presses the apartment number on the keypad, or choose company/resident name on the **LCD display**, the mobile and/or landline phone rings at users so they can talk with visitors. During the voice call they can open the doors simply by pressing two digit code on telephone keypad. It is very easy and quick installation and it doesn't require any additional wiring inside the buildings.

SOLO-KP LCD is suitable for up to 1000 apartments (on special request), 2 phone numbers per apartment. Setting of the parameters, adding or deleting users is easy: with sending short text messages - **SMS** to the device, with **Smartphone app** or with **EasySet program** installed on your PC.

The **SOLO-KP LCD** allows you also to remotely open doors by using the **Caller ID recognition** - free of charge or with entering **Access Entry Codes** on the keypad.
